c. Measured Service

Measured Service allows subscribers to control charges for monthly telephone service by controlling usage. Besides a basic monthly charge for the access line, a Customer is billed for usage based upon the duration of originated calls. Chargeable time includes the initial minute plus the additional minutes or fraction thereof, if any. Usage rates are per minute of use or fraction thereof.

Measured Service is furnished subject to the availability of facilities.

The Operator Completion of Local Calls charge (Section 16 of this Agreement) applies in addition to the Measured Service usage charges when the Customer requests the assistance of the Company operator to complete a local call.

d. Community Connection Service

Community Connection Service extends the local calling area and allows Customers to control the charges for their monthly telephone service. Community Connection Service does not increase the monthly telephone charge, but it allows Customers to be billed for usage based on the distance, duration, and time-of-day of originated calls. Usage rates are per minute of use or fraction thereof. The distance used for Community Connection Service billing is based on the airline mileage between rate centers serving the called and calling access line.

Chargeable time includes the initial period plus the additional period, if any. When a call begins in one rate period and ends in another, the rate in effect in each rate period applies to the portion of the call occurring within that rate period. In the event that a minute of use is split between two rate periods, the rate at the start of the minute applies.

The off-peak usage rates apply to that portion of the call occurring within the following periods:

From 9:00 P.M. to but not including 8:00 A.M., on Monday through Friday.

All day Saturday, Sunday, and certain holidays. The holidays are New Year's Day (January 1), Independence Day (July 4), Christmas Day (December 25); Labor Day and Thanksgiving Day (or their resulting legal holidays).

Community Connection Service charges apply to all services that provides local calling, regardless of the service being flat rate or measured rate. The usage rates (specified in the Price List section of this Agreement) are in addition to the monthly rates for lines and trunks provided under this Agreement including but not limited to local service bundles, Centrex, Prime Advantage, and Trunk Advantage. For measured service, Community Connection Service charges apply instead of the Measured Service usage charges for call to Community Connection Service areas.

The Operator Completion of Local Calls charge (Section 16 of this Agreement) applies in addition to the Community Connection Service usage charges when the Customer requests the assistance of the telephone company operator to complete a local call.
