B. RATES FOR STANDARD EQUIPMENT

4. Direct Inward Dialing (DID) To Switching Systems Located on Customer Premises

(a) General

1. DID service is furnished subject to the availability of facilities and numbers. This service is furnished from a Telephone Company central office on trunk lines (excluding FX, WATS and foreign central office services) to customer premises switching equipment equipped for compatible DID operation. (N)
2. This service includes the central office switching equipment necessary for inward dialing from the central office directly to stations associated with the customer premises switching equipment.
3. This service must be provided on all lines in a central office trunk group that are arranged for inward service. Each trunk group equipped with DID will be billed as a separate service.
4. The rates and charges specified in (2) following contemplate the use of equipment and serving arrangements considered standard by the Telephone Company. If nonstandard equipment or service is requested and provided, rates and charges will be based on the costs involved.
5. DID service is furnished upon the condition that the customer must subscribe to central office trunk service adequate in the judgment of the Telephone Company to permit the use of DID service without injurious effect upon general telephone service. Acceptable grade of service is defined as follows:

Grade of service should be based on the time consistent busy hour with the probability of incoming call blocking engineered at B.01 or less based on the Revised Neal-Wilkinson Tables.

PRIVATE BRANCH EXCHANGE SERVICE

B. RATES FOR STANDARD EQUIPMENT (Continued)

4. Direct Inward Dialing (DID) To Switching Systems Located on Customer Premises (Continued)

(a) General (Continued)

6. When DID service is furnished in connection with customer premises equipment, regulations and charges for interconnection, regulations and charges for maintenance of service, and general regulations apply as specified in this tariff. Operational characteristics of interface signals between the Telephone Company provided interconnection and the customer provided switching equipment must conform to the rules and regulations the Telephone Company considers necessary to maintain proper standards.

(T)  
|  
(T)

7. The Telephone Company shall not be responsible to the customer, authorized user or joint user if changes in the Telephone Company's protection criteria, facilities, operations, or procedure cause the facilities provided by a customer, authorized user, or joint user to be obsolete, or to require modification.

(T)

8. One primary listing will be furnished without charge for each separate trunk group as specified in Section 6 of this tariff for PBX service. Rates and charges as specified therein shall apply for each regular additional listing desired for DID numbers furnished as part of this service.

(T)

9. Customer premises equipment must be arranged by the customer to provide for the interception of calls to vacant and non-working assigned DID numbers.

(T)

Certain material omitted from this page now appears on Original Page 193.1.

Issued: January 16, 1986

President, Cincinnati, Ohio

Effective: December 30, 1985  
Issued By Authority of an Order of the  
Public Service Commission of  
Kentucky in Case No. 9353 and  
Case No. 9355, December 30, 1985.

PRIVATE BRANCH EXCHANGE SERVICE

D. SPECIAL SERVICE ARRANGEMENTS (Continued)

1. Secretarial Switchboards (Continued)

c. Application of Channel Charges

- (1) For an additional termination of exchange service directly in the secretarial switchboard, a Type 2040 channel as provided in Section 13 of this tariff applies. This channel will connect the serving central office of the exchange service with the location of the secretarial switchboard.
- (2) For an additional termination of exchange service in a concentrator, the following applies: (T)
  - (a) A Type 2041 channel as provided in Section 13, preceding, when the exchange access line is served from the central office building in which the concentrator is located, or
  - (b) An interoffice channel and concentrator terminal as provided in Section 13 for a Type 2041 channel, when the exchange access line is served from a central office building other than the one in which the concentrator is located. The interoffice channel connects exchange the serving central office of the service with the central office in which the concentrator is located. (T)
- (3) Nonresidence exchange service may be furnished to a customer for connection directly in a secretarial switchboard, or directly in a concentrator provided the switchboard and/or concentrator are served from the central office building providing the exchange service. Rates and charges apply for the regular nonresidence individual line; plus, in the case of lines connected directly in a concentrator, a Type 2041 channel as specified in Section 13. The listed address for either type connection shall be that of the secretarial switchboard. (T)

D. SPECIAL SERVICE ARRANGEMENTS (Continued)

2. Special Billing Numbers

- a. Through the use of consecutive special billing numbers assigned by the Telephone Company, the customer may obtain details of originating toll calls in order to associate them with specific stations, departments or projects. (T)
- b. Special billing numbers are furnished to the subscriber without charge, subject to the availability of such numbers. The Telephone Company reserves the right to refuse or discontinue special billing numbers when, in its judgment, the available number resource is near depletion, and/or such numbers are required in the provision of other established service offerings.
